

## Directions to Bridgework (11/9/2002; 8:00 am)

Look for a snowmobile trail marker by the driveway to turn into. Bridge is located behind farmhouse and barn. Take long asphalt driveway back to get to the bridge. Please note that we want to keep all mud off of landowner's driveway, so keep your vehicles clean or stay off the driveway.

### Items needed for bridgework:

**Heavy duty drills**  
**Waders (Chest waders preferably)**  
**Heavy sledge hammers (3lb or heavier)**  
**Chainsaws**  
**Heavy duty jacks (3 ton or heavier)**
